Producer's Price Index: April 2020 (Base: Fourth Quarter 2013=100)

Department of Census and Statistics Ministry of Finance, Economic and Policy Development

## Introduction

The Producer's Price Index (PPI) measures the average change over the time in prices received by domestic producers of goods and services. The introduction of the PPI in Sri Lanka provides a more complete picture of price movements and trends for making informed policy decisions. Department of Census and Statistics (DCS) has been releasing PPI quarterly from September, 2015 with time lag of 35 days. Giving due consideration for making the estimates available more frequently, it has now been arranged to release PPI monthly with a time lag of 45 days.

PPI is an important macro-economic indicator. It serves as an indicator of short-term inflationary trends and as a deflator of economic series. It is also used in productivity analysis, contract escalation, business analysis and current cost accounting etc. PPI covers the Agriculture, Manufacturing and Electricity & Water supply sectors of the economy.

### Annual Changes of Producer's Price Index (PPI)

The PPI for all economic activities: agriculture, manufacturing and water supply & electricity, for the month of April is 143.7. The annual growth rate recorded for the overall PPI is 4.2 per cent. ISIC refers to International Standard Industrial Classification of all activities (Revision 3.1)

### **Revision Policy**

PPI is compiled by collecting prices received by the domestic producers for about 514 products from 376 manufacturing and utility related establishments. Prices of 36 agricultural products are collected from 331 Divisional Secretariat Divisions covering the whole country. Electricity & Water supply sector prices are collected from Ceylon Electricity Board and National Water Supply & Drainage Board respectively.

In certain circumstances, it is not possible to collect requested prices by the time of releasing PPI. Such prices are therefore, statistically imputed. Therefore, indices of the latest month are released as provisional.

Further details of Producer's Price Index compiled for the month of April 2020, are also published in the department web site : <u>http://www.statistics.gov.lk/page.asp?page=Inflation%20and%20Prices</u>

Producer's Price Index (PPI) is released monthly with 45 days time lag with effect from January, 2017. The PPI for month of May, 2020 will be released on 15<sup>th</sup> of July 2020.
