Introduction

The Producer's Price Index (PPI) measures the average change over the time in prices received by domestic producers of goods and services. The introduction of the PPI in Sri Lanka provides a more complete picture of price movements and trends for making informed policy decisions. Department of Census and Statistics (DCS) has been releasing PPI quarterly from September, 2015 with time lag of 35 days. Giving due consideration for making the estimates available more frequently, it has now been arranged to release PPI monthly with a time lag of 45 days.

PPI is an important macro-economic indicator. It serves as an indicator of short-term inflationary trends and as a deflator of economic series. It is also used in productivity analysis, contract escalation, business analysis and current cost accounting etc. PPI covers the Agriculture, Manufacturing and Electricity & Water supply sectors of the economy.

Annual Changes of Producer's Price Index (PPI)

The PPI for all economic activities: agriculture, manufacturing and water supply & electricity, for the month of June is 146.5. The annual change in the PPI has been compiled as 7.5 per cent. The PPI reported for the three major economic activities, agriculture, manufacturing and electricity & water supply are 184.7, 136.3 and 90.6 respectively. Agriculture , manufacturing and electricity & water supply activies reported positive changes of 24.9 per cent , 4.4 per cent and 3.1 per cent on annual basic respectively (Table 1).

The major sub activities of agriculture sector, "Growing crops" and "Farming of animals" reported positive Changes of 25.8 per cent and 4.0 per cent on annual basis. Activities related to "Growing of crops": "Growing of cereals and other crops", "Growing of fruits, nuts and beverage and spice crops" and "Growing of vegetables" recorded positive annual changes of 30.8 per cent, 26.3 per cent and 17.0 per cent on respectively annual basis. However, sub activities related to "Farming of animals": "Production of dairy" and "Production of eggs" recorded same positive percentage change of 4.0 per cent in June 2020 compared to the same month in 2019.

The sub activities of manufacturing sector, "Manufacturing of wearing apparel, dressing, and dyeing of fur"(13.2%), "Publishing, printing and reproduction of recorded media"(12.2%), "Manufacturing of electrical machinery and apparatus not elsewhere classified"(10.3%), "Manufacturing of rubber and plastics"(10.1%), "Manufacturing of food products and beverages" (8.6%), "Manufacturing of furniture and Manufacturing of goods not elsewhere classified"(6.1%), "Manufacturing of other non-metallic mineral products"(3.5%), "Manufacturing of chemicals and chemical products"(3.2%) and "Manufacturing of tobacco products"(0.2%) reported positive percentage changes on annual basis. However, "Manufacturing of coke, refined petroleum products and nuclear fuel" (52.8%), "Manufacturing of other transport equipment" (4.7%), "Manufacturing of Textiles" (2.4%) and "Manufacturing of basic metals"(0.6%) reported negative annual percentage changes in June 2020 compared to June 2019 (Table 4).

Both activities in utility sector, "Generation and distribution of electricity" reported positive change of 3.6 per cent and "Collection, purification and distribution of water" reported negative change of 0.9 per cent respectively in the month of June 2020 compared to the same month in 2019 (Table 4).

Table 1: PPI of June of 2019 & 2020 and Year on Year changes of PPI by Major Economic Activity (Base: 2013Q4=100)

	PPI	Year on Year	
Major Economic Activity	2019 June	2020 June**	(June2020**/ June 2019)
All Activities	136.3	146.5	7.5
Agriculture	147.9	184.7	24.9
Manufacturing	130.6	136.3	4.4
Electricity & water supply	87.9	90.6	3.1

** - Provisional

Monthly Changes of Producer's Price Index

The overall PPI increased by 0.5 index points from 146.0 index points in May 2020 to 146.5 index points in June 2020. The overall monthly positive change reported for the month of June 2020 is 0.3 per cent. Out of the three major economic activities, agriculture & electricity and water supply activity reported positive changes of 5.1 per cent and 3.1 per cent on monthly basis, however manufacturing sector reported negative of 1.9 per change compared to the previous month (Table 2)

The both sub activities of agriculture sector, "Farming of animals" (21.9%) and "Growing of crops" (4.5%) reported positive percentage changes on monthly basis. Further, all activities related to "Growing of crops": "Growing of vegetables" (34.1%), "Growing of cereal crops" (3.6%) and "Growing of fruits, nuts and beverage crops" (2.1%) reported positive percentage changes on monthly basis. Both the sub activities related to "Farming of animals": "Egg production" (37.7%) and "Production of dairy" (0.4%) also reported monthly positive percentage changes.

In Manufacturing sector, the sub activities, Manufacturing of basic metals" (0.8%), "Manufacturing of rubber and plastics" (0.3%), "Manufacturing of other non-metallic mineral products" (0.2%) reported positive on monthly percentage changes basis. However "Manufacturing of coke, refined petroleum products and nuclear fuel"(27.1%), "Manufacturing of food and beverages" (1.7%), "Manufacturing of wearing apparel, dressing, and dyeing of fur" (1.4%), "Manufacturing of electrical machinery and apparatus not elsewhere classified" (0.9%), "Manufacturing of Textiles" (0.8%) and "Manufacturing of furniture" (0.7%) reported negative percentage changes on monthly basis, while, "Manufacturing of tobacco products", "Publishing, printing and reproduction of recorded media", "Manufacturing of other transport equipment", "Manufacturing of chemicals and chemical products" remained unchanged in the month of June 2020 compared to May 2020 (Table 4).

Both sub activities of the utility sector, "Generation and distribution of electricity" and "Collection, purification and distribution of water" reported positive changes of 3.3 per cent and 1.6 per cent in the month of June 2020 on monthly basis (Table 4).

Table 2: PPI of May & June of 2020 and Month to Month changes of PPI by Major Economic Activity (Base:	
2013 Q4 =100)

* - Revised ** - Provisional

ISIC refers to International Standard Industrial Classification of all activities (Revision 3.1)

Revision Policy

PPI is compiled by collecting prices received by the domestic producers for about 514 products from 376 manufacturing and utility related establishments. Prices of 36 agricultural products are collected from 331 Divisional Secretariat Divisions covering the whole country. Electricity & Water supply sector prices are collected from Ceylon Electricity Board and National Water Supply & Drainage Board respectively.

In certain circumstances, it is not possible to collect requested prices by the time of releasing PPI. Such prices are therefore, statistically imputed. Therefore, indices of the latest month are released as provisional.

Further details of Producer's Price Index compiled for the month of June 2020, are also published in the department web site: <u>http://www.statistics.gov.lk/page.asp?page=Inflation%20and%20Prices</u>

Producer's Price Index (PPI) is released monthly with 45 days time lag with effect from January, 2017. The PPI for month of July, 2020 will be released on 15th of September 2020.

Director General Department of Census and Statistics Contact Numbers: 011-2147001 / 011- 2147020

Due to the pandemic situation, most of the establishments in the manufacturing sector were not operated during the month of April 2020. Further, non-operation of shipments caused for missing of producer prices, affecting the compilation process of PPI. In this case, producer prices were imputed; if all producer prices of an economic activity were missing, in such occasions indexes of economic activities were imputed. Moreover, when compiling PPI, internationally recognized best practices were adopted without introducing any bias to the index. In this non-normal situation, DCS is much grateful to International Monetary Fund, for giving guidance to overcome the issues when compiling price indexes.
