Census of Public and Semi - Government Sector Employment - 2006

Background

Department of Census and Statistics conducts the Census of Public and Semi-Government Sector Employment once in four years since 1980. This is the 7th in the series which was conducted on 1st July 2006. The previous Censuses were conducted in 1980, 1985, 1990, 1994, 1998 and 2002 respectively.

This Census consists of 3 Sectors

- State Sector
- Provincial Public Sector
- Semi-Government Sector

This report contains the data pertaining to the State Sector and Provincial Public Sector (Semi-Government Sector is not included).

The information for the Census was collected using a postal enquiry where information was received through a questionnaire filled personally by each employee. Prior to conduct this Census, the frame was prepared in January 2006 by using the information of the respective institutions.

The Census frame consisted of 1052 State Sector institutions (Ministry Offices, Departments, Institutions, National Schools, District Secretariats and Divisional Secretariats) and 708 Provincial Public Sector Institutions.

At the outset a Co-coordinating Officer was appointed to each of the Ministries under the Central Government as well as under the Provincial Councils to monitor the Census work and to liaise with the Department of Census and Statistics. The responsibility of the Co-ordinating Officer was to distribute the schedules among all the employees, collect the duly completed schedules, checking the accuracy and return them to the Department of Census and Statistics on time.

This Census collected information on personal and occupational attributes of the employees such as, Personal Emoluments, Occupation, Language Abilities, Educational Qualifications, Professional Qualifications, Salary Particulars, Details of Loan, Leave Taken, District of Permanent Residence, District where the Employee Lives/Stay to Travel for Work, Mode of Travel and Distance and Knowledge in Using Computers.

Figure 2: Percentage Distribution of Employees by Provincial Council

Limitations

The initial estimated number of employees reported by the individual institutions is not very reliable. Most of the institutions reported higher figures than the actual number of employees. When reporting the number of employed persons on Temporary or Casual Basis, the figures were mostly over estimated. It is important to note that the information in this report are based on the Institutions according to the structure that existed at the time of conducting the Census in 2006.
