# Index of Industrial Production

Quarterly Bulletin Q2, 2022

---

Department of Census and Statistics

Ministry of Finance, Economic Stabilization and National Policies

The Index of Industrial Production (IIP) is an abstract number, the magnitude of which represents the status of production in the industrial sector for a given period of time. Its main purpose is to provide a measure of the short-term changes in the volume of industrial production from the manufacturing sector in the country.

The IIP provides information to gauge industrial performance and to forecast the future economic performance. It can be used to identify the turning points in economic development at an early stage. The major advantage of the production index compared to other indicators is the combination of fast availability and detailed breakdown of activities.

- 
- ❗ The volume of industrial production for the 2nd quarter of 2022 has decreased by 3.4 % compared to the same quarter in 2021.
  - ❗ The volume of industrial production has decreased by 0.8 % in the month of June, 2022 compared to the same month in 2021.
  - ❗ The production in the month of June 2022 has decreased by 0.1 % when compared to the production in the month of May 2022.

## Uses of the IIP

The IIP is a key indicator of economic performance in most countries. Index numbers summarize past developments, facilitate forecasting of future trends and assist with evidence based policy decisions. In addition, index numbers facilitate International comparisons. The IIP also has an important role in the compilation of the Quarterly National Accounts. Analysis of economic changes, IIP has a crucial role because industrial production is one of the more dynamic and fluctuating element in the economy.

### IIP for the 2nd quarter 2022

Month & Quarter	IIP <sup>P</sup> (2015=100)
April - 2022	87.3
May - 2022	91.1
June - 2022	96.7
2022 2 <sup>nd</sup> Quarter	91.7

Table 1: IIP for the 2nd quarter 2022  
P - Provisional

The volume of industrial production has decreased by 0.8 % in June, 2022 compared to the same month in 2021. Among the manufacturing industries; volume of products of 'Beverages' (136.0%), 'Tobacco products' (89.6%) have shown remarkable increases meanwhile 'Manufacture of fabricated metal products' (54.8%) has reported decrease during this period.

## The Vision of DCS

"To be the leader in the region in producing timely statistical information to achieve the country's development goals."

## The Mission of DCS

"Making contribution in the socioeconomic development of the country by providing accurate timely statistics, more Effectively by means of new technology, and utilising the services of dedicated staff under a strategic leadership to become a prosperous nation in the globalised environment."
