

## **Preliminary Report – 2**

# **Census of Buildings and Persons Affected by the Tsunami – 2004**

(In this report, statistics are given only for the  
affected Grama Niladhari divisions)

**VADAMARACHCHI NORH DS DIVISION**

**JAFFNA DISTRICT**

**Department of Census and Statistics - 2005**

## Preliminary Report – 2

### Census of Buildings and Persons Affected by the Tsunami – 2004

---

Data collection of the Census on the Buildings and Persons Affected by the Tsunami – 2004 was conducted in two stages. During the stage one data on some key indicators related to the number of damaged buildings were collected. Damaged houses were categorized into completely damaged, partially damaged and usable, and partially damaged and not usable. Indicators compiled at various administrative divisions based on the data collected at the first stage have been released in the first set of preliminary reports.

During the second stage of the census, data on many other areas related to the disaster was collected. Characteristics of the buildings (both housing units and other buildings), occupants and dead and missing persons are some of such areas. Data collected are being computerized. Arrangements were made to give priority to compile some indicators, immediately needed for decision making. Indicators compiled on priority basis are listed below.

1. Average distance between the building and beach
2. Materials used for construction of buildings
3. Ownership of buildings
4. Floor area of buildings
5. Housing units by income category
6. Housing units by number of families
7. Population by age group
8. Number of people disabled/injured/sick due to tsunami
9. Number of persons engaged in fishing before and after the disaster
10. Number of persons engaged in other fishing related employments before and after the disaster
11. Number of persons engaged in coir industry before and after the disaster
12. Number of persons engaged in tourism industry before and after the disaster
13. Number of persons engaged in government employment before and after the disaster
14. Number of persons engaged in other employment before and after the disaster

The above indicators at GN level are presented in this report for the Vadamarachci North DS division of the Jaffna district.

#### NOTE

During the first stage of the census all affected buildings were listed. With regard to the buildings where there was no person available to collect information, details of a contact person were obtained by inquiring the people living in the neighborhood. Irrespective of all these attempts, some eligible respondents could not be enumerated during the second stage of the census.

For Vadamarachci North DS division of Jaffna district x percent of the eligible respondent could not be enumerated. Arrangements are being made to collect information from all eligible respondents of these housing units as well.

## **Concepts and Definitions Used**

### **Housing Unit**

The following 3 conditions should be satisfied in order to consider a building unit as a housing unit.

- (i) It should be a place of dwelling of human beings.
- (ii) It should be separated from other places of dwelling.
- (iii) It should have separate entrance.

Under the definition, any building unit or a part of a building or any structure whether permanent or temporary such as huts, shanties, sheds etc., which are in fact used as place of residence were regarded as housing units.

### **Number of persons usually living in the housing unit**

A person was considered as a member of the housing unit if he/she was a usual resident of the housing unit when the Tsunami disaster occurred. They may be presently living in the housing unit or elsewhere such as a welfare center or a friend's/ relative's house.

### **Employment prior to the Tsunami and whether the employment can be continued after the Tsunami ?**

This information was collected from those persons who were engaged in an employment before the Tsunami. Further information was collected on whether they could continue their employment after the Tsunami.

### **Materials used for the construction of the housing unit**

Materials used for the construction of housing unit was considered permanent, if the roof, the walls and the floor were constructed using Permanent material.

Roof is considered Permanent, if constructed using tiles / asbestos etc. Roof is considered Temporary, if constructed using cadjan / tin sheets etc.

Walls are considered Permanent, if constructed using bricks / cement blocks etc. Walls are considered Temporary, if constructed using mud, wood / tin sheets etc.

Floor is considered Permanent, if constructed using cement/ tiles / granite etc. Floor is considered Temporary, if constructed using mud / dung etc.

**Distance from the beach to the housing unit:**

This distance was estimated by the enumerator at the time of the data collection.

**Income of the housing unit**

This includes the total income of all income earners of the housing unit from all sources, before the Tsunami.

**Size of Housing unit**

This refers to the total number of the members of the housing unit, who are alive after the Tsunami, and were usually residing in the housing unit, before the Tsunami. They may be living in the housing unit or elsewhere now.

**Disability, Injury or Sickness due to Tsunami**

If a person was disabled or injured or had a sickness due to Tsunami, information on such persons was collected at this census.

**Table 1: Number of damaged\*\* housing units in affected GN divisions\* by material used for construction of the housing unit**

Vadamarachci North DS division of Jaffna District - April 2005

\*Statistics are given here only for the affected GN divisions

\*\*Damaged - Fully damaged, Partially damaged (unusable) and Partially damaged (usable) housing units only were considered damaged

⊛ If any combination of materials other than 'Permanent' is considered as 'Other'

Note : In some DS divisions, number of housing units surveyed in stage 2 were greater than the number of housing units listed in stage 1 because some housing units were identified as damaged at later stage. In some other DS divisions, number of housing units surveyed in stage 2 were slightly less than the number of housing units covered in stage 1, because there was a small percentage of housing units which were not surveyed due to unavailability of a suitable respondent.

\*Statistics are given here only for the affected GN divisions

\*\*Damaged - Fully damaged , Partially damaged (unusable ) and Partially damaged (usable) housing units only are considered damaged.

Note : In some DS divisions, number of housing units surveyed in stage 2 were greater than the number of housing units li 1 because some housing units were identified as damaged at later stage. In some other DS divisions, number of housing un in stage 2 were slightly less than the number of housing units covered in stage 1, because there was a small percentage of h units which were not surveyed due to unavailability of a suitable respondent.
