# Index of Industrial Production

Quarterly Bulletin Q4, 2025

---

Department of Census and Statistics  
Ministry of Finance, Planning and Economic Development

The Index of Industrial Production (IIP) is an abstract number, the magnitude of which represents the status of production in the industrial sector for a given period of time. Its main purpose is to provide a measure of the short-term changes in the volume of industrial production from the manufacturing sector in the country.

The IIP provides information to gauge industrial performance and to forecast the future economic performance. It can be used to identify the turning points in economic development at an early stage. The major advantage of the production index compared to other indicators is the combination of fast availability and detailed breakdown of activities.

- 
- ☐ The value of Index of Industrial production for the 4<sup>th</sup> quarter of 2025 is 99.5
  - ☐ The volume of Industrial production for the 4<sup>th</sup> quarter of 2025 has increased by 5.0% compared to the same quarter in 2024.
  - ☐ The value of Index of Industrial production for the month of December 2025 is 99.0
  - ☐ The volume of industrial production has increased by 4.4% in the month of December, 2025 compared to the same month in 2024.
  - ☐ The production in the month of December 2025 has increased by 0.4% when compared to the production in the month of November 2025.
-

## Uses of the IIP

The IIP is a key indicator of economic performance in most countries. Index numbers summarize past developments, facilitate forecasting of future trends and assist with evidence based policy decisions. In addition, index numbers facilitate International comparisons. The IIP also has an important role in the compilation of the Quarterly National Accounts. Analysis of economic changes, IIP has a crucial role because industrial production is one of the more dynamic and fluctuating element in the economy.

**Table 1: IIP for the 4<sup>th</sup> quarter 2025**

Month & Quarter	IIP <sup>P</sup> (2015=100)
October - 2025	100.2
November - 2025	99.2
December - 2025	99.0
<b>2025 4<sup>th</sup> Quarter</b>	<b>99.5</b>

P - Provisional

The volume of industrial production has increased by 4.4% in December, 2025 compared to the same month in 2024. Among the manufacturing industries; volume of products of 'Manufacture of basic pharmaceutical products and pharmaceutical preparations' (108.3%); has shown remarkable increase meanwhile 'Manufacture of paper and paper products' (28.3%) has reported remarkable decrease during this period. (Source: Table 5)

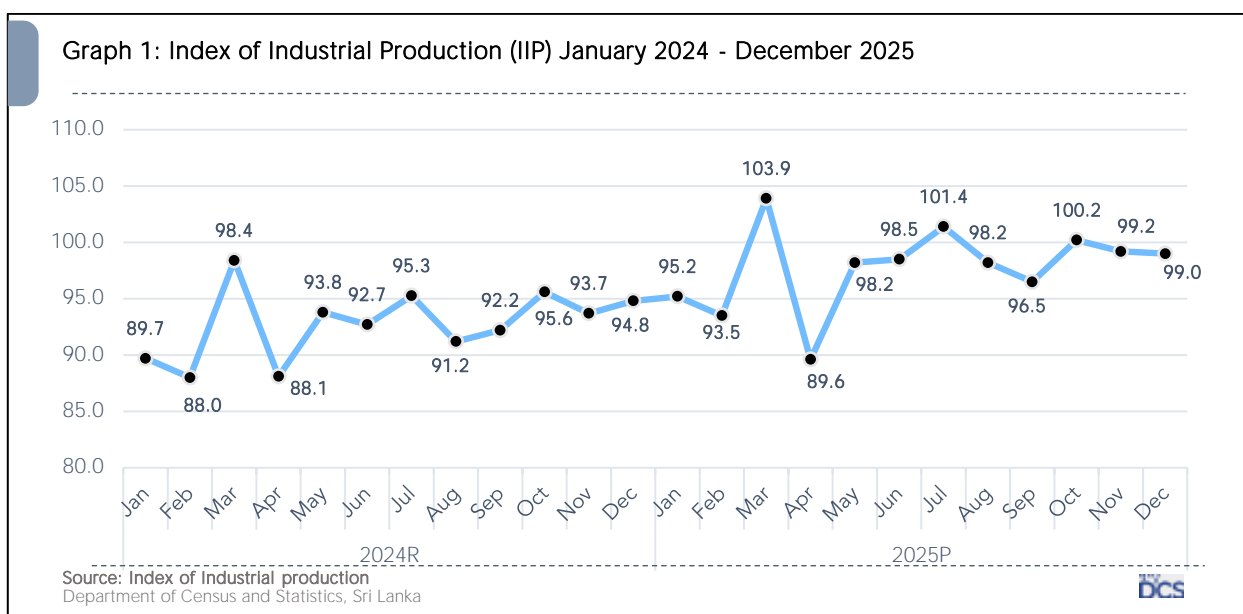

**Table 2: Month to month % changes of the IIP**

	% Change
September 25 / October 25	0.4
October 25 / November 25	0.5
November 25 / December 25	0.4

**Table 3: Seasonally adjusted month to month percentage changes of the IIP by industry divisions**

ISIC 2digit	Description	IIP 2025 (12-Month Moving Average)		Month to month % Change
		November <sup>P</sup>	December <sup>P</sup>	
10	Food products	101.3	102.0	0.7
11	Beverages	124.1	122.6	-1.3
12	Tobacco products	71.7	70.3	-2.0
13	Manufacture of Textiles	106.9	105.2	-1.6
14	Manufacture of wearing Apparels	95.4	96.0	0.6
15	Manufacture of leather and related products	102.1	103.5	1.4
16	Manufacture of wood and products of wood and cork except furniture; manufacture of articles of Straw and plaiting materials	71.6	72.5	1.2

### The Vision of DCS

"To be the leader in the region in producing timely statistical information to achieve the country's development goals."

### The Mission of DCS

"Making contribution in the socioeconomic development of the country by providing accurate timely statistics, more Effectively by means of new technology, and utilising the services of dedicated staff under a strategic leadership to become a prosperous nation in the globalised environment."
